

The Connoisseur

The handle that started it all

When Fab&Fix set out to develop the ultimate in window and door hardware, the Connoisseur inline espag handle was the first result.

True to our principles of Form & Function, its technical excellence was matched by the first sweeping curves seen on a product of this type. Only available in white at launch, it's become a testament to the longevity of our design.

Now available in inline, offset and cranked variants, in a wide range of colour finishes, over 15 million Connoisseur handles are installed in homes around the world.
